- (a) Senior loans (also called bank loans, leveraged loans, or floating rate loans) in which the Fund invests generally pay interest at rates which are periodically determined by reference to a base lending rate plus a spread (unless otherwise identified, all senior loans carry a variable rate of interest). These base lending rates are generally (i) the Prime Rate offered by one or more major United States banks, (ii) the lending rate offered by one or more European banks such as the London Interbank Offered Rate (“LIBOR”) or (iii) the Certificate of Deposit rate. Rate shown represents the weighted average rate at September 30, 2018. Senior loans, while exempt from registration under the Securities Act of 1933, as amended (the “1933 Act”), contain certain restrictions on resale and cannot be sold publicly. Senior secured floating rate loans often require prepayments from excess cash flow or permit the borrower to repay at its election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturity shown. Current LIBOR rates include 1 month which is equal to 2.26% and 3 months equal to 2.40%.
- (b) The issuer is, or is in danger of being, in default of its payment obligation.
- (c) Represents fair value as determined by the Fund’s Board of Trustees (the “Board”), or its designee in good faith, pursuant to the policies and procedures approved by the Board. Securities with a total aggregate value of \$280,690,165, or 25.8% of net assets, were fair valued under the Fund’s valuation procedures as of September 30, 2018. Classified as Level 3 within the three-tier fair value hierarchy. Please see Note 2 for an explanation of this hierarchy, as well as a list of unobservable inputs used in the valuation of these instruments.
- (d) Represents value held in escrow pending future events. No interest is being accrued.
- (e) Securities exempt from registration under Rule 144A of the 1933 Act. These securities may only be resold in transaction exempt from registration to qualified institutional buyers. At September 30, 2018, these securities amounted to \$223,654,732 or 20.6% of net assets.
- (f) Variable or floating rate security. The base lending rates are generally the lending rate offered by one or more European banks such as the LIBOR. The interest rate shown reflects the rate in effect September 30, 2018. LIBOR, otherwise known as London Interbank Offered Rate, is the benchmark interest rate that banks charge each other for short-term loans. Current LIBOR rates include 1 month which is equal to 2.26% and 3 months equal to 2.40%.
- (g) These positions represent claims that have been filed with the United States Bankruptcy Court Southern District of New York against Lehman Commercial Paper, Inc. UK Branch.
- (h) Affiliated issuer. Assets with a total aggregate market value of \$52,751,324, or 4.8% of net assets, were affiliated with the Fund as of September 30, 2018.
- (i) Non-income producing security.
- (j) Restricted Securities. These securities are not registered and may not be sold to the public. There are legal and/or contractual restrictions on resale. The Fund does not have the right to demand that such securities be registered. The values of these securities are determined by valuations provided by pricing services, brokers, dealers, market makers, or in good faith under the procedures established by the Fund’s Board of Trustees. Additional Information regarding such securities follows:

Restricted Security	Security Type	Acquisition Date	Cost of Security	Market Value at Period End	Percent of Net Assets
Metro-Goldwyn-Mayer, Inc.	Common Stocks	12/20/2010	\$21,845,688	\$43,876,317	4.0%
TerreStar Corporation	Common Stocks	03/16/2018	\$ 3,093,276	\$ 9,052,445	0.8%

- (k) All or part of this security is pledged as collateral for short sales and written options contracts. The market value of the securities pledged as collateral was \$12,327,145.
- (l) Represents investments of cash collateral received in connection with securities lending.
- (m) As of September 30, 2018, \$18,234,975 in cash was segregated or on deposit with the brokers to cover investments sold short and reverse repurchase agreements and is included in “Other Assets & Liabilities, Net.”
- (n) No dividend payable on security sold short.

The average amount of borrowing by the Fund on reverse repurchase agreements outstanding during the year ended September 30, 2018 was \$46,003,058 at a weighted average interest rate of 3.55%.

Reverse Repurchase Agreements outstanding as of September 30, 2018 were as follows:

NOTES TO INVESTMENT PORTFOLIO (unaudited)

As of September 30, 2018

Highland Floating Rate Opportunities Fund

Organization

Highland Floating Rate Opportunities Fund (the “Fund”) is organized as an unincorporated business trust under the laws of The Commonwealth of Massachusetts. The Fund is registered with the U.S. Securities and Exchange Commission (the “SEC”) under the Investment Company Act of 1940, as amended (the “1940 Act”), as a non-diversified, closed-end management investment company. On September 25, 2017, the Fund acquired the assets of Highland Floating Rate Opportunities Fund (the “Predecessor Fund”), a series of Highland Funds I, a Delaware statutory trust. The Fund is the successor to the accounting and performance information of the Predecessor Fund. This report includes information for the three months ended September 30, 2018.

On November 3, 2017, shareholders of the Fund approved a proposal authorizing the Board of Trustees (the “Board”) of the Fund to convert the fund from an open-end fund to a closed-end fund at a special meeting of shareholders. The Board took action to convert the Fund to a closed-end fund effective shortly after 4:00 p.m. Eastern Time on November 3, 2017 (the “Conversion Date”). The Fund also effected an approximately 1-for-2 reverse stock split of the Fund’s issued and outstanding shares on November 3, 2017, thereby reducing the number of shares outstanding. Shareholders were paid cash for any fractional shares resulting from the reverse stock split. The Fund began listing its shares for trading on the New York Stock Exchange (the “NYSE”) on November 6, 2017 under the ticker symbol “HFRO”. The Fund may issue an unlimited number of common shares, par value \$0.001 per share (“Common Shares”). Prior to the Conversion Date, the Fund issued Class A, Class C, and Class Z shares.

Basis of Consolidation

The Fund consolidates HFRO Sub, LLC (“HFRO Sub”), a Delaware wholly owned subsidiary, for financial reporting, and the holdings of HFRO Sub, LLC are included within the Consolidated Investment Portfolio for the Fund. HFRO Sub is a bankruptcy remote financing vehicle used to obtain leverage with the portfolio of bank loans serving as collateral. All inter-company accounts and transactions have been eliminated in the consolidation.

Valuation of Investments

In computing the Fund’s net assets attributable to shares, securities with readily available market quotations on the NYSE, National Association of Securities Dealers Automated Quotation (“NASDAQ”) or other nationally recognized exchange, use the closing quotations on the respective exchange for valuation of those securities. Securities for which there are no readily available market quotations will be valued pursuant to policies adopted by the Fund’s Board of Trustees (the “Board”). Typically, such securities will be valued at the mean between the most recently quoted bid and ask prices provided by the principal market makers. If there is more than one such principal market maker, the value shall be the average of such means. Securities without a sale price or quotations from principal market makers on the valuation day may be priced by an independent pricing service. Generally, the Fund’s loan and bond positions are not traded on exchanges and consequently are valued based on a mean of the bid and ask price from the third-party pricing services or broker-dealer sources that Highland Capital Management Fund Advisors, L.P. (“the Investment Adviser”) has determined to have the capability to provide appropriate pricing services which have been approved by the Board.

Securities for which market quotations are not readily available, or for which the Fund has determined that the price received from a pricing service or broker-dealer is “stale” or otherwise does not represent fair value (such as when events materially affecting the value of securities occur between the time when market price is determined and calculation of the Fund’s net asset value (“NAV”), will be valued by the Fund at fair value, as determined by the Board or its designee in good faith in accordance with procedures approved by the Board, taking into account factors reasonably determined to be relevant, including, but not limited to: (i) the fundamental analytical data relating to the investment; (ii) the nature and duration of restrictions on disposition of the securities; and (iii) an evaluation of the forces that influence the market in which these securities are purchased and sold. In these cases, the Fund’s NAV will reflect the affected portfolio securities’ fair value as determined in the judgment of the Board or its designee instead of being determined by the market. Using a fair value pricing methodology to value securities may result in a value that is different from a security’s most recent sale price and from the prices used by other investment companies to calculate their NAVs. Determination of fair value is uncertain because it involves subjective judgments and estimates.

There can be no assurance that the Fund’s valuation of a security will not differ from the amount that it realizes upon the sale of such security. Those differences could have a material impact to the Fund. The NAV shown in the Fund’s financial statements may vary from the NAV published by the Fund as of its period end because portfolio securities transactions are accounted for on the trade date (rather than the day following the trade date) for financial statement purposes.

Fair Value Measurements

The Fund has performed an analysis of all existing investments and derivative instruments to determine the significance and character of inputs to their fair value determination. The levels of fair value inputs used to measure the Fund's investments are characterized into a fair value hierarchy. Where inputs for an asset or liability fall into more than one level in the fair value hierarchy, the investment is classified in its entirety based on the lowest level input that is significant to that investment's valuation. The three levels of the fair value hierarchy are described below:

- Level 1* — Quoted unadjusted prices for identical instruments in active markets to which the Fund has access at the date of measurement;
- Level 2* — Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active, but are valued based on executed trades; broker quotations that constitute an executable price; and alternative pricing sources supported by observable inputs are classified within Level 2. Level 2 inputs are either directly or indirectly observable for the asset in connection with market data at the measurement date; and
- Level 3* — Model derived valuations in which one or more significant inputs or significant value drivers are unobservable. In certain cases, investments classified within Level 3 may include securities for which the Fund has obtained indicative quotes from broker-dealers that do not necessarily represent prices the broker may be willing to trade on, as such quotes can be subject to material management judgment. Unobservable inputs are those inputs that reflect the Fund's own assumptions that market participants would use to price the asset or liability based on the best available information.

The Investment Adviser has established policies and procedures, as described above and approved by the Board, to ensure that valuation methodologies for investments and financial instruments that are categorized within all levels of the fair value hierarchy are fair and consistent. A Pricing Committee has been established to provide oversight of the valuation policies, processes and procedures, and is comprised of personnel from the Investment Adviser and its affiliates. The Pricing Committee meets monthly to review the proposed valuations for investments and financial instruments and is responsible for evaluating the overall fairness and consistent application of established policies.

As of September 30, 2018, the Fund's investments consisted of senior loans, foreign denominated or domiciled senior loans, collateralized loan obligations, corporate bonds and notes, U.S. asset-backed securities, non-U.S. asset-backed securities, claims, common stocks, registered investment companies, cash equivalents, rights and warrants. The fair value of the Fund's senior loans and bonds are generally based on quotes received from brokers or independent pricing services. Loans, bonds and asset-backed securities with quotes that are based on actual trades with a sufficient level of activity on or near the measurement date are classified as Level 2 assets. Loans and bonds that are priced using quotes derived from implied values, indicative bids, or a limited number of actual trades are classified as Level 3 assets because the inputs used by the brokers and pricing services to derive the values are not readily observable.

The fair value of the Fund's common stocks, registered investment companies, rights and warrants that are not actively traded on national exchanges are generally priced using quotes derived from implied values, indicative bids, or a limited amount of actual trades and are classified as Level 3 assets because the inputs used by the brokers and pricing services to derive the values are not readily observable. Exchange-traded options are valued based on the last trade price on the primary exchange on which they trade. If an option does not trade, the mid-price, which is the mean of the bid and ask price, is utilized to value the option.

At the end of each calendar quarter, the Investment Adviser evaluates the Level 2 and 3 assets and liabilities for changes in liquidity, including but not limited to: whether a broker is willing to execute at the quoted price, the depth and consistency of prices from third party services, and the existence of contemporaneous, observable trades in the market. Additionally, the Investment Adviser evaluates the Level 1 and 2 assets and liabilities on a quarterly basis for changes in listings or delistings on national exchanges.

NOTES TO INVESTMENT PORTFOLIO (unaudited) (continued)

As of September 30, 2018

Highland Floating Rate Opportunities Fund

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Fund's investments may fluctuate from period to period. Additionally, the fair value of investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values the Fund may ultimately realize. Further, such investments may be subject to legal and other restrictions on resale or otherwise less liquid than publicly traded securities.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. Transfers in and out of the levels are recognized at the value at the end of the period. A summary of the inputs used to value the Fund's assets as of September 30, 2018 is as follows:

NOTES TO INVESTMENT PORTFOLIO (unaudited) (continued)

As of September 30, 2018

Highland Floating Rate Opportunities Fund

Investments designated as Level 3 may include assets valued using quotes or indications furnished by brokers which are based on models or estimates and may not be executable prices. In light of the developing market conditions, the Investment Adviser continues to search for observable data points and evaluate broker quotes and indications received for portfolio investments. For the period ended September 30, 2018, there were no transfers between Levels.

The following is a summary of significant unobservable inputs used in the fair valuations of assets and liabilities categorized within Level 3 of the fair value hierarchy:

Category	Market Value at 9/30/2018	Valuation Technique	Unobservable Inputs	Input Value(s)
Preferred Stock	\$ 206,814,891	Net Asset Value	N/A	N/A
		Cost	N/A	N/A
		Discounted Cash Flow	Discount Rate	8.5%
Senior Loans	49,626,137	Adjusted Appraisal	Liquidity Discount	10%
		Multiples Analysis	Asset Specific Discount	10%
			Multiple of Revenue	0.4x - 0.5x
		Discounted Cash Flow	Multiple of EBITDA	3.0x - 5.0x
			Discount Rate	11.1% - 16.5%
			Spread Adjustment	0.1% - 0.5%
Common Stocks	16,196,486	Multiples Analysis	Cost	N/A
			Multiple of Revenue	0.4x - 0.5x
		Discounted Cash Flow	Multiple of EBITDA	3.0x - 8.25x
			Price/MHz-PoP	\$0.077 - \$0.625
			Risk Discount	33.0% - 35.8%
			Scenario Probabilities	15.0% - 70.0%
			Illiquidity Discount	10.0%
			Discount Rate	12.0 - 17.0%
			Terminal Multiple	6.75x
			Net Asset Value	N/A
REIT	6,714,497	Net Asset Value	N/A	N/A
Corporate Bonds	1,076,400	Liquidation Analysis	Claim Amount: Percent of Par	6.9%
Warrants	206,616	Multiples Analysis	Multiple of EBITDA	6.75x - 8.25x
			Discounted Cash Flow	Discount Rate
		Black-Scholes	Terminal Multiple	6.75x
			Volatility	32.80%
Claims	52,138	N/A	N/A	N/A
Total	\$ 280,690,165			

In addition to the unobservable inputs utilized for various valuation methodologies, the Investment Adviser frequently uses a combination of two or more valuation methodologies to determine fair value for a single holding. In such instances, the Investment Adviser assesses the methodologies and ascribes weightings to each methodology. The weightings ascribed to any individual methodology ranged from as low as 16.7% to as high as 80% as of September 30, 2018. The selection of weightings is an inherently subjective process, dependent on professional judgement. These selections may have a material impact to the concluded fair value for such holdings.

NOTES TO INVESTMENT PORTFOLIO (unaudited) (continued)

As of September 30, 2018

Highland Floating Rate Opportunities Fund

Security Transactions

Security transactions are accounted for on the trade date. Realized gains/(losses) on investments sold are recorded on the basis of the specific identification method for both financial statement and U.S. federal income tax purposes taking into account any foreign taxes withheld.

Cash & Cash Equivalents

The Fund considers liquid assets deposited with a bank and certain short-term debt instruments of sufficient credit quality with original maturities of three months or less to be cash equivalents. These investments represent amounts held with financial institutions that are readily accessible to pay Fund expenses or purchase investments. Cash and cash equivalents are valued at cost plus accrued interest, which approximates market value. The value of cash equivalents denominated in foreign currencies is determined by converting to U.S. dollars on the date of this financial report.

Securities Sold Short

The Fund may sell securities short. A security sold short is a transaction in which the Fund sells a security it does not own in anticipation that the market price of that security will decline. When the Fund sells a security short, it must borrow the security sold short from a broker-dealer and deliver it to the buyer upon conclusion of the transaction. The Fund may have to pay a fee to borrow particular securities and is often obligated to pay over any dividends or other payments received on such borrowed securities. In some circumstances, the Fund may be allowed by its prime broker to utilize proceeds from securities sold short to purchase additional investments, resulting in leverage. Securities and cash held as collateral for securities sold short are shown on the Investments Portfolio for the Fund.

Derivative Transactions

The Fund is subject to equity securities risk, interest rate risk and currency risk in the normal course of pursuing its investment objectives. The Fund enters into derivative transactions for the purpose of hedging against the effects of changes in the value of portfolio securities due to anticipated changes in market conditions, to gain market exposure for residual and accumulating cash positions and for managing the duration of fixed income investments.

Reverse Repurchase Agreements

The Fund may engage in reverse repurchase agreement transactions with respect to instruments that are consistent with the Fund's investment objective or policies.

Affiliated Issuers

Under Section 2 (a)(3) of the Investment Company Act of 1940, as amended, a portfolio company is defined as "affiliated" if a fund owns five percent or more of its outstanding voting securities or if the portfolio company is under common control. The table below shows affiliated issuers of the Fund for the period ended September 30, 2018:

Issuer	Shares at June 30, 2018	Beginning Value as of June 30, 2018	Purchases at Cost	Proceeds from Sales	Net Realized Gain/(Loss) on Sales of Affiliated Issuers	Change Unrealized Appreciation/ Depreciation	Ending Value as of September 30, 2018	Shares at September 30, 2018	Affiliated Income

Item 2. Controls and Procedures.

(a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3 (c))) are effective, as of a date within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on their evaluation of these controls and procedures required by Rule 30a-3 (b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b) or 240.15d-15(b)).

(b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the registrant's last fiscal quarter that have materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 3. Exhibits.

Certifications pursuant to Rule 30a-2(a) under the 1940 Act and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

**Certification Pursuant to Rule 30a-2(a) under the 1940 Act and Section 302 of the
Sarbanes-Oxley Act**

I, Frank Waterhouse, certify that:

1. I have reviewed this report on Form N-Q of Highland Floating Rate Opportunities Fund;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the schedules of investments included in this report fairly present in all material respects the investments of the registrant as of the end of the fiscal quarter for which the report is filed;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) and internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of a date within 90 days prior to the filing date of this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize, and report financial information; and

- (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
